

THERMOWASHER

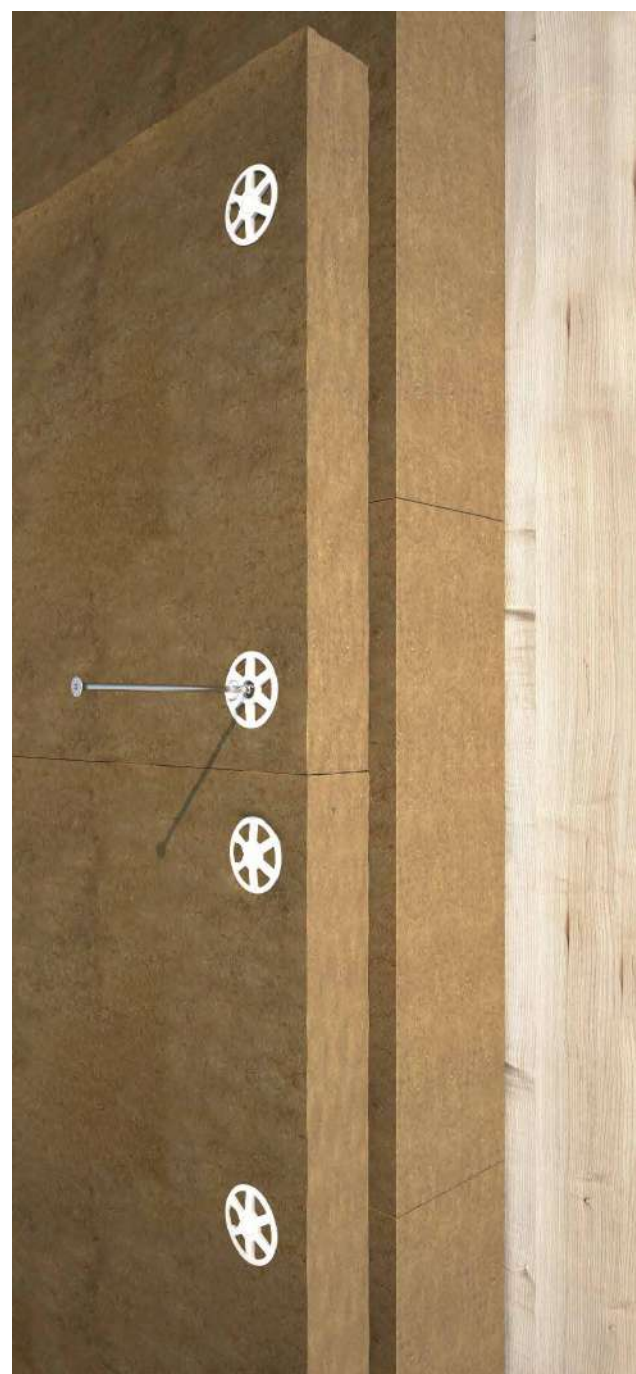

WASHER TO FASTEN INSULATION TO TIMBER

CE FASTENING WITH HBS SCREWS

The THERMOWASHER is intended for use with screws with the CE marking in accordance with ETA. Ideal for Ø6 or Ø8 HBS screws, with lengths based on the thickness of the insulation to be fastened.

ANTI-THERMAL BRIDGE

Incorporated hole cover to avoid thermal bridges. Large cable spaces for proper plaster adhesion. Has a system that prevents the screw from pulling out.

CODES AND DIMENSIONS
